SKILLS SUMMARY

- **Languages:** JavaScript, HTML5, CSS3, Bash
Proficient in building responsive web applications with modern frontend technologies.
- **Frameworks/Libraries:** Tailwind CSS, jQuery, ReactJS, Next.js
Experienced in developing user interfaces and interactive components using these frameworks.
- **Tools:** Git/GitHub, VMware, PowerShell ISE, Vim/Nvim, SSH, Spark AR, Figma
Skilled in utilizing various development tools for version control, virtualization, code editing, and design prototyping.
- **Database/Backend:** Node.js
Knowledgeable in server-side development and building scalable backend systems.
- **Operating Systems:** Linux, Windows, MacOS
Proficient in working across multiple operating systems for development and deployment. Skilled in building, configuring, troubleshooting systems, deployment, and ongoing maintenance tasks for smooth system operation.

PROJECTS

- **GitHub Repository Initialization Script:** This Bash script automates the process of creating a new GitHub repository, initializing it with a README file, and pushing the initial commit to the remote repository. The script prompts the user for a repository name and utilizes the GitHub API to create a new public repository.
Project is live here: github.com/cosmicwanderer7/github-script
- **A terminal-styled portfolio :** Aesthetically appealing portfolio platform fashioned in the style of a Linux terminal. Engineered through the integration of static site generators, HTML, CSS, and JavaScript. The platform exhibits a design reminiscent of a Terminal, featuring a text-based interface and striking ASCII art.
Project is live here: www.prithviyewale.tech
- **Contact-Form with google sheet database:** Engineered a resilient web application utilizing Next.js, and aesthetically crafted with Tailwind CSS. Integrated an intuitive contact form for effortless response submissions. Utilized the Google Sheets API to securely administer and store responses in a Google Sheet database.
Project is live here contactform-psi.vercel.app
- **Google-Search-Clone:** Created an operational emulation of Google's search page, achieving a visually identical look using Tailwind CSS. Implemented search functionality through Google's Programmable Search Engine. Leveraged the Next.js framework, a robust tool based on React, for project development.

EDUCATION

- | | |
|---|-----------------------------------|
| • Shivaji University
<i>Bachelor Of Science; GPA: 8.28</i> | Maharashtra, India
2020 - 2023 |
| • Yashwantrao Chavan Institute Of Science
<i>HSC State Board; Percentage: 57.85</i> | Maharashtra, India
2018 - 2020 |
| • Challenge Academy
<i>SSC State Board; Percentage: 79.00</i> | Maharashtra, India
2017 - 2018 |

ACHIEVEMENTS

- Successfully completed the freeCodeCamp.org Responsive Web Design Developer Certification, demonstrating completion of approximately 300 hours of coursework
- Completed Python 101 for Data Science course on cognitiveclass.ai, powered by IBM Developer Skills Network. Achieved a passing grade in the course, gaining proficiency in Python programming for data science.
- Proficiently accomplished the Version Control course on Coursera, showcasing expertise in implementing Version Control systems and effectively managing code revisions.

HOBBIES

- **PC Building:** Passionate about assembling and customizing PCs, proficient in troubleshooting hardware and software issues and fixing them ensuring optimal performance.
- **Linux Distributions:** Enthusiastic about experimenting with various Linux distributions, adept at customization and configuring system settings to meet specific requirements.
- **Web Development:** Skilled in designing and developing websites with an emphasis on user interface (UI) and user experience (UX). Proficient in creating unique and visually appealing website designs that deviate from conventional formats.

FUTURE ASPIRATIONS

- I am keen to work in a dynamic and challenging environment where I can use my skills to further my career and contribute to the success of the organization.
